PROFESSIONAL SUMMARY

Aspiring Web developer with experience in building and maintaining web applications, with a strong foundation in programming, data handling, and system debugging. Proficient in PHP, MySQL, and familiar with Java and Python. Experienced in developing backend logic, troubleshooting issues, and collaborating in team-based software development environments.

TECHNICAL SKILLS

Programming Languages: PHP, Java, JavaScript, Python, C++	Web Development: HTML, CSS, Bootstrap, jQuery	Frameworks & Backend: Laravel, Backend Development
Database Management: MySQL	Version Control: Git, GitHub	Tools & Software: XAMPP, Visual Studio Code, IntelliJ IDEA, Microsoft OfficeTools, Capcut

WORK EXPERIENCE

Robot Operator - Astro Robotics (Makati City)	August 2025 - April 2026
- Supported AI and robotics development by preparing, validating, and maintaining structured datasets for machine learning systems - Ensured data accuracy, consistency, and compatibility prior to system integration and deployment	
IT Intern - Casa Hacienda de Tejeros (Rosario, Cavite)	February 2025 - May 2025
- Contributed to backend development and system maintenance of a web-based logbook system using PHP and MySQL - Implemented backend logic for data validation, processing, and secure handling of user inputs	

PROJECTS

Little Steps: Web Application for Child Growth Tracking	2025
Role: Team Leader / Full Stack Developer	
- Developed a full-stack web application using PHP, MySQL, HTML, CSS, and JavaScript. - Designed and implemented backend logic for data storage, retrieval, and processing. - Structured database schemas and handled CRUD operations efficiently.	
Visitor's Log Walk-in System	2025
Role: Backend Developer	
- Contributed to system development and integration of a web-based logbook system using PHP and MySQL. - Developed and maintained backend logic for data validation, processing, and secure handling of user inputs. - Diagnosed and resolved system issues while optimizing performance and reliability.	
De Chavez Waterhaus – E-Commerce Web Application	2025
Role: Team Leader / Full Stack Developer	
- Developed a web-based e-commerce system using PHP and MySQL that enables users to browse and place water product orders online - Led the team in project planning and implemented core frontend and backend functionality, including order processing and database management	

EDUCATION

Bachelor of Science in Information Technology	2021 - 2025
Cavite State University CCAT Campus	
Technical Vocational Livelihood – Computer Systems Servicing	2020 - 2023
Cavite National High School -Senior High School
